Other recommendations for filming competition videos

- The background music in the video must be loud enough. Be careful about the placement of the microphone and loud cheering or comments near it.
- The recommended environment for filming videos is well lit and has a uniform background without distracting elements. Film the video in high quality. Cheer divisions must be performed on FlexiRoll.
- It is recommended to film the video no later than 2 weeks before the competition, to allow for any corrections.

The video itself will be checked only by the safety judge on the day of the competition, it will not be checked by the organizer when sending.

Penalties

In case of violation of certain video requirements, the safety judge may penalize 1-5 points per judge.

A very poor quality video may be eliminated/disqualified from the competition by the jury.

We strongly recommend that all stunt grips and acrobatic elements are clearly and distinctly visible in the submitted video. Indistinguishable grips in stunts, where the (i)legality of the stunt in the level depends on the grip, and off-screen acrobatic starts and impacts will be evaluated as rule violators and will be automatically awarded the appropriate penalty - 5 pts/judge.
